Covetrus Prescription Management

The new best practice in complete veterinary care.

Easy Prescribing

You, your practice, and clients will now have access to one of the world's largest veterinary pharmacies. Including standard prescriptions, preventatives, diets, supplements, AND even compounded medications.

Client Outreach

Strengthen your relationship with clients while driving compliance with practice-branded email communications including refill and renewal reminders as well as online booking. Refocus your staffs time from having to fulfilling compounding scripts, refill reminders, or appointments.

Practice-Branded Online Pharmacy

Provide convenience to your clients with your own personalized online pharmacy, customized to whatever products you want to offer. Includes competitive pricing and exclusive instant rebates at no cost to you, AutoShip options, and Free Shipping. You can now reduce the cost and time managing inventory, no more lugging around those 50lb bags of dog food.

Practice Insights

Know your patients and understand your practice with robust insights. Understand more around what clients are walking out the door while determining your real rate of compliance and more.

The Covetrus platform has done more to streamline our practice, improve our revenues and profits, and gain back client sales, than any other system we've implemented."
